### AirPatrol Welcomes Scott B. Mexic to its Federal Advisory Board

**Columbia, MD – February 08, 2012 - [AirPatrol Corp.](#)**, a leader in wireless security, is proud to welcome Scott Mexic to its Federal Advisory Board.

Scott worked for the US government for 24 years in senior positions with the White House, the U.S. Congress, the US Embassy in Kabul, Dept. of Agriculture, Dept. of Transportation and Dept. of Housing and Urban Development. Since retiring from the US government, Scott has focused on International Business Development opportunities in Europe, the Balkans and Africa.

“AirPatrol’s Federal Advisory Board has gained extensive federal experience and expertise through Scott Mexic joining,” stated AirPatrol’s Executive Chairman, Bradley Rotter. “Scott’s relationships and focus are a great asset to AirPatrol.”

Just recently, the White House has officially launched its Federal Mobility Strategy National Dialogue. Mobility and cyber security are continuing to build momentum in the federal arena and AirPatrol is leading. A white paper on Advanced Persistent Response to Mobile Threats was released January 12, 2012 and can be found on AirPatrol’s [website](#).

“AirPatrol’s capabilities are becoming more of a need than a want with each passing day. Recent federal legislation has shown the growing importance of mobility and cyber security,” Scott explained. “AirPatrol’s solutions are leading the industry and I’m proud to be a part of the AirPatrol team.”

#### **About AirPatrol Corporation**

AirPatrol is the first and only security company whose technology can continuously monitor any mobile device on cellular and Wi-Fi channels in an enterprise, determine its compliance with security policy, enforce the appropriate policy on the device in real time and dynamically empower the device’s capabilities for the situation regardless of who the user might be. AirPatrol offers a comprehensive suite of location-based management solutions that enable clients in the government, financial, healthcare, corporate and retail sectors to keep pace with the expanding security requirements of an increasingly mobile world.
